1. Approval of previous meeting notes
Moved by M. Harpell and seconded by C. Snell. **Approved**
2. Business Arising from the previous minutes

ATLANTIC GOLD

- Touquoy Tour- preferred date for CLC tour is November 5th. Back up date is October 22, with the understanding that Megan Myers is unavailable on that date. **Action: AGC to confirm the date and report back to the CLC members.**

3. New Business

Project Description- Meghan Milloy and J. Millard provided an overview of the Project Description document submitted to CEAA on September 28th. Topics reviewed with the CLC included:

- Proposed location of infrastructure
- Mine Processing Flow Sheet
- Options for #7 Road Alignment
- Proposed haul route
- Reclamation
- Overview of environmental and biophysical conditions/baseline survey results
- Overview of the CEAA process and the purpose of Project Description

Committee members asked questions of clarification and information. There were many questions about the ore processing. James Millard offered to bring in a metallurgist to a future meeting to provide further details.

4. Project Updates

- a. Committee Comments – Committee members identified issues that community members have been asking about the project. James Millard explained that many details regarding the mine are finalized during the preparation of the Environmental Impact Statement and are not available until this document is submitted to CEAA.

Topics identified by CLC members:

- i. Safety concerns about the road realignment
- ii. The amount of light that might be emitted from the mine.
- iii. When is the next public consultation opportunity?
- iv. Water withdrawal and impacts of the mine on water and the river.
- v. Waste water and road realignment issues.
- vi. How much noise will be created by the mine?
- vii. Is there a way for contractors interested in providing services to the mine to be put on a list?

Decision: Committee members to provide input on information that will be presented at the next Community Open House in Sherbrooke to ensure that AGC is responding to the concerns of the community.

ATLANTIC GOLD

Action: AGC will look at creating a list of potential contractors for the Cochrane Hill Mine.

- b. Jim Millard, Manager of Environment and Permitting, provided the following updates:
 - i. Community Bulletin will be issued shortly and will include information on AGC's activities and Projects. The CLC members were encouraged to circulate the Bulletin.
 - ii. Requests for Community Support should be forward to the communityrelations@atlanticgoldcorporation.com email address.
 - iii. Updates on the Touquoy mine operations – economic activity, employment numbers.
 - iv. Website is gradually getting more content so keep an eye on it over the coming months. www.atlanticgoldcorporation.com

5. Date and location of next meeting - January 21st, 2019 in the Community room at the Municipal Office in Sherbrook.

Notes prepared by: Chrystal Fuller

Notes review by: James Millard
